Professional Summary

Dedicated Frontend Developer with hands-on experience building responsive, interactive, and user-friendly websites and applications. Specializing in React and modern frontend technologies, I create impactful and scalable digital solutions with a keen eye for design and exceptional user experience. Passionate about continuous learning and excited to contribute to innovative projects that push the boundaries of web development.

Skills

- **Frontend Technologies:** HTML, CSS, JavaScript, React, TypeScript, Vite
 - **Design & Prototyping Tools:** Figma, Canva
 - **Version Control & Collaboration:** Git, GitHub
 - **Other Tools & Frameworks:** Next.js, Tailwind CSS, Material UI
-

Professional Experience

Frontend Developer

Freelancer | Remote

June 2024 – Present

- Developed and maintained responsive websites using React, ensuring optimal performance and smooth user experience across multiple devices.
- Collaborated with clients to gather requirements and deliver tailored solutions, resulting in a 20% increase in client satisfaction.
- Integrated third-party APIs and services to enhance application functionality and streamline user interactions.
- Worked closely with design teams to transform mockups and wireframes into dynamic, interactive interfaces.
- Conducted thorough testing and debugging, reducing post-launch issues by 30% and ensuring high-quality deliverables.

Projects

Portfolio Website

- Developed a personal portfolio using React, showcasing a curated selection of web development projects and design skills.
- Integrated a contact form with backend functionality, improving lead generation by capturing inquiries directly through the site.

Store-It

- Created a robust frontend for a file storage website, enabling users to securely store and access files.
- Integrated Appwrite for data storage and authentication, ensuring a seamless user experience and secure access management.

Ceo-Dashboard

- Built a business dashboard interface using React, providing users with real-time data management capabilities.
- Integrated Firebase for data storage and authentication, leading to a 40% improvement in data retrieval times.

Movies Pad

- Designed and developed a movie trailer website, offering users a smooth browsing experience for viewing and sharing trailers.
- Implemented responsive design principles to ensure compatibility across devices, leading to increased user engagement.
